ABOUT THE COVER

Patricia Hayes channeled this drawing for her older and only brother, Fred, who crossed over to the other side in October, 2014. This channeled drawing illustrates how much he is loved and how much she has enjoyed their communications since he left.

Communication from the Other Side

My Diary of our communication since my brother crossed over in October, 2014.

by Patricia Hayes

Dear Friends, I share my personal diary with you in hope that it will give you comfort to know that you do survive the death of your physical body and have an active life much like here. For over 40 years, I have helped many people communicate with their loved ones who have crossed over but have never had an opportunity to have a personal experience with continuous contact such as this. It has been amazing and wonderful. For those of you that are not familiar with my art, the drawings in the diary are Entura Art, which means “enter the auric field (Entura) and create with soft pastels images from the spiritual world” My first entry talks about my brother’s funeral and his first visit that was initiated by him in November.

November 2nd, 2014

Another year has gone by again with so much happening in the last three months. I had a book-signing event for my new book: *‘Light from the*

Heavens’ in October in North Carolina. We left a couple of weeks early for some relaxation and wonderful Delphi energy. I was also

giving an Entura Art presentation of *Feminine Light Rising*, the phenomena now sweeping our world, in the Historic Masonic Theater in downtown Asheville. Soon after I arrived at Delphi, my older and only brother Fred crossed over to the other side. He lived a mile away from our Delphi home. I had taught him how to channel Entura art when he was 82 years old and he totally loved it. I learned just how much he loved it at his funeral. A Hospice

Chaplain who spoke there said that he had visited Freddy every week for two years. He opened his benediction by saying that he was also a Baptist Minister and even though he wasn't supposed to agree with the things my brother and he talked about, he really enjoyed talking with him and looking at his spiritual art. Then he told everyone that Fred's mother (my mom) who had crossed over in 1977 had recently visited Fred too. I was amazed that Fred had shared that with the chaplain. It was wonderful that I happened to be there and could spend eight days with him in the hospital before he left his life. He knew where he was going and was able to use the Transition Bridge in one of my drawings to cross over effortlessly. He has already visited me and brought my father with him who crossed in 1963. He is having fun exploring his favorite places in Nature for now. Know always that Love is the way to a greater tomorrow!

November 10th, 2014

I've been on overwhelm since I've returned to Florida catching up on mail and other things and haven't had a chance to write. The good news is

I've heard from my big brother again. It's a new day for him but all evening I had been thinking of him with a bit of

sadness. Then suddenly I realized that he was probably trying to communicate with me. As soon as I told Marshall, I felt my brother's energy increase. He was there with me and happy that I finally felt him. He told me that he was still traveling to many places and that all he had to do was think about where he wanted to go and he would be there. Then he told me that the real reason he came was that he wanted me to give his two children a message. His message made me feel very emotional. He said to tell his two children that he wished he could have left them more. I felt the sorrow he was feeling deep within me. And then, he was gone. Afterwards I kept thinking about what he had said and thought to myself that there were probably many parents that had the same regrets. So, I sent him a message. I told him that he

had loved both of his children dearly their entire lives and that Love was the greatest gift of all. I know he could hear me.

November 13th, 2014

This has been a great week! My distributor informed me that they are featuring *Light From The Heavens* on the cover of their Christmas catalog.

And even better news, I heard from my brother's son and he said he had a dream about his dad. He said he

looked younger and he felt that his dad was talking to him! Coincidence or confirmation, what do you think? I also think that my brother is trying to channel a drawing through me. He's never attempted anything like this before and it's slow coming through. I can't be sure yet if he will be able to do it but it will be exciting if he can. I know there will be some kind of evidence that it is him if he can do it. I now realize the true value of my channeled drawing: *"We are the bridge between Spirit and Mother Earth"*. The image in blue on bottom right with a pink arc illustrates each of us touching the heart of others. Through our knowledge that life continues after the death of our physical bodies, we give loving comfort to others in their time of sorrow. Spiritual awareness is golden on Mother Earth. Sharing our Love is who we are. God blesses us so that we may bless others.

November 18th, 2014

The photo is of my brother and last night I had an amazing experience with him. As I was falling

asleep, I heard a low and barely audible voice say, "Lil sister", which is what he always called me. Then he said it's really great here. You can go anywhere if you image and think of where you want to go. Then suddenly, I could see him in the distance. He was in the woods; snow was on

the ground and it covered the very tall trees. He looked small at the foot of the trees. I got really excited when I saw him. I told him I could see him and he said he knew. The colors were incredible, the snow was luminescent and you could see pale colors dancing in the trees. It was truly beautiful. Then he said, "It pays to have an active imagination here and I always have. You pretty much stay in the same place until your thought changes to a different subject or place. Anything you can imagine, you can do. So, that's what I've been doing. I have no thought of settling anywhere right now. I'm having too much fun. I'm traveling around and it's kind of like the feeling of flying much like I felt when I flew my airplane. Nothing takes long." I began to notice a luminescent pale blue light around him and he smiled and said he'd see me again. Then he was gone. I couldn't go to sleep and thought about him afterwards. I remembered about a year before he died, my mom who crossed over in 1977 woke him up telling him something. He got up and wrote it down so he wouldn't forget. The message began, "Look for me in the midnight snow" I'm sure that's why he contacted me where there was snow on the ground. I got up to go to the bathroom and looked at the clock and couldn't believe that it was midnight! Wow! I could see my brother as clearly as I see right now. It was a phenomenal visit!

November 26th, 2014

When my brother went to the hospital this last time, he was really ready to leave his physical body.

He was on oxygen all the time, used a walker and never left the house. His company was his five best friends, his

doggies who all slept with him in his small room. His joy was seeing, talking and playing games with his kids on his computer. He couldn't see well but he could see everything in my drawings and loved looking at them and telling me what he could see. One of the best things I ever did was to teach him how to channel Spirit through the color and motion

of the soft pastels and drawing pads I had bought for him. We had great fun together and laughed all the time. I was able to teach him a lot about the other side before he left to go there. When I first arrived at the hospital, I told him I would be with him when he transitioned, and he just smiled at me and said, "I know you will!" Since he's been over, he has come to me each time we've communicated. Tonight, Marshall & I will contact him and I'll have a pad and pen ready so I can remember everything he's done since I last heard from him. This drawing above is one that I first used with my brother to show him that there is no distance between earth and the Light of the heavens. It's only a change of vibration. It is our thoughts that take us wherever we go. And, if you want to go to great places and see and learn wonderful new things, uplifted and inspired thoughts will take you there. He learned well and is having a wonderful time. Most people don't know it but this works on earth also. It just takes more time here so most don't realize that we create our own reality all the time. I'm looking forward to seeing him tonight! I'm whispering to everyone, if you have a loved one on the other side, send your love to them and when you feel his/ her energy, invite them to join you for a visit. If you want to communicate with a loved one, sending them Love is the only thing that works all the time if you want to communicate with someone. They are always so happy you remembered them.

November 28th, 2014

The photo is of my brother and my daughter, Kimberly. They were the best of friends! She followed her intuitive feelings and went to see him the day after he arrived at the hospital. He was his normal self that day only and they talked for a long

time. The next 7 days, he spent visiting the spiritual world. You could feel him there. His feet would move and his expressions would change. One time he came back, sat up and wanted to shave. Then quickly he began drifting again. He woke up once early and kissed his daughter. Then left again. She was thrilled! He had asked that all lifesaving medications be stopped because his kidneys were already failing and he was ready to go. Well, I didn't try to contact my brother until Thanksgiving Day. It was a perfect time. I found him sitting at a round rough wooden table inside a modest cabin. I couldn't tell the exact location and I'm sure he didn't know either but it was the place he saw that he wanted to be. The cabin was about midway up a high mountain surrounded by tall trees and had a small front porch. When he saw me, he got very excited. I did too! I noticed pads of paper on the table and asked him what he was doing. "Nothing yet", he said, then told me that he was going systematically going through stages of his life to see what brought him the greatest joy and sense of purpose. This made sense to me. In 2006, he had made a booklet of his first ten years and shared it with the family. I told him I couldn't have done that, my early memories aren't that many. He laughed and said sure you could. But I couldn't have. It's funny, I never seem to observe physical details but I do pay attention to them when I'm in the spiritual world. We walked out to the porch and he asked me what I thought. I knew he was talking about the place he had chosen to settle for a while. The place was incredible. I loved the woods and the light coming through the thick trees was luminescent and seemed to twinkle like stars. The silence was awe-inspiring too. I turned and hugged Freddy for the first time since he left. Our energies merged and I felt my love for him and his for me like I never had before. The feeling was so much more than when he was here. I told him he couldn't have found a greater place to reflect. It was perfect. Before I left, he told me he had a hunch about what he'd be doing but wanted to play out all stages of his life before knowing for sure. Before leaving, I assured him I'd love him to visit me anytime. He just smiled and looked at me like, 'you don't think I know that'. I was ten years younger and always his 'Lil Sister who could do 'no wrong'.

December 4th, 2014

Last night I was going to contact my brother but the spiritual energy was so very strong that Marshall and I lifted in meditation to see what was happening and to meet with our spiritual friends. There were so many spiritual beings gathered to give us gifts to enhance the feminine light rising within us. They said that if the gifts are visualized, they become active so to think of them and their purpose as often as possible to secure them in our energy fields. The energy was so strong we thought we were going to lift off the bed. We could see so clearly. The energy was electric and magical and for some reason it reminded me of the three wise men who brought the gifts of Frankincense & Myrrh to the newborn Christ. The first gift they gave us all was a pink eagle, and when we visualize it, we will feel our strength increasing, physical vision improving, and also our spiritual vision enhanced to a much greater degree. The second gift is a sunflower with a pink aura to protect us with God's Love. The third gift was a pair of pink ballerina shoes to provide spiritual understanding for every one of our experiences as the feminine light continues to rise brightly within us. The energy of the message they gave us was powerful; 'You are the answer. Rise to the point of Knowing Who you are and feel the loving power within you. Pray to awaken hearts and bring Peace to the collective whole. A new journey is beginning for you and you are ready for your next step. Sleep in the Heart of God and Rise with Love on your minds and lips'. I've been visualizing all day. I hope everyone does. Tonight I will contact my brother to share this message and see how he's doing! This is the channeled drawing of the energy of our

meditation, *Feminine Light Rising - As Above, so Below!* Peace & Love!

December 9th, 2014

My last visit with my brother was not like the other ones. He was sitting on a hillside overlooking a lake near his new place when I arrived. He was happy to see me but his mood was quiet and a bit apprehensive. I asked him if he finished writing. He just shook his head and said, 'Hell, I don't know what I want to do'. I intuitively knew what had happened. The very discovery he had made soon after he crossed over was occurring to him now. I remembered well what he had told me for I knew how true it was. He said that you have to have a good imagination to be over here or you could get stuck in the same thought(s). My brother was fine as long as he was exploring, visiting loved ones here and there and visiting memories of places here on earth. But, when he questioned what he wanted to do over there, he got stuck in a place of not knowing. He was frustrated and a bit depressed and couldn't move forward. He didn't really know

what he wanted to do. I explained what had happened and told him that he is doing

something; he was visiting with me and I was sharing our visits with others so he shouldn't be concerned for now. I suggested he continue to work with me until he did know. I told him that being inspired to do something is a far cry from looking for something to do. I shared with him that I have always looked to Spirit and asked to be used as a channel of love and light and that has carried me from inspiration to inspiration for most of my life. I told him again not to worry, that my brother wouldn't stay stuck for long. I reminded him that at the end of his life he couldn't see, could hardly hear, nor leave the house or walk without the help of his walker and yet he stayed busy doing stuff he loved all the time. He laughed and told me I was right, he'd visit his kids. When I left, he walked back to his house and I knew he was going to do some

writing as well as visit his kids. The next morning, I channeled this drawing for him of how much we all loved him and I'll continue to talk with him from time to time for the next few days.

December 16th, 2014

The drawing is one that my brother just channeled. He thinks it's not bad for our first attempt. I don't know about that. I understood most of what he was communicating through the drawing but had to get Marshall's help on the bottom left side. Through Marshall, I found my brother was 'testing me' which was just like him. He wanted to make sure I was channeling him rather than my normal source, which are our meditations. Marshall discovered a Roman chariot in the drawing, almost off the paper on the bottom left. My brother and Marshall were fascinated with that era. I found my brother lying on the ground in front of the chariot, face down looking over the right edge of a brown mass. That's where he was when projecting images and messages to me when as I was channeling the drawing. When he saw the drawing, he said; 'Pretty good, you passed the test. I never thought you would get the chariot or me but you got everything I sent you.' This is what I told him, "I am the large figure on right with purple hair, and there's white energy coming from the orange eye which is his message and drawing coming to me. To the left of me is a large purple figure that is my brother's daughter. There are two teachers above her that he is sending to help her communicate with him. He gave me a personal message to give to her. On top far right is a curious angelic form watching with other curious spiritual beings below. On bottom right is what I call 'Man on the mountain' meaning he is feeling much better and loves the mountain where he is." Fred said he was going to visit his son

next. He wants to project another drawing through me soon & will let me know before he does it. This was a fascinating experience for me because after I taught my brother how to channel Entura Art at 82 years old, he would never open his eyes when he drew. He was so afraid that he would draw rather than channel. He had been an amateur artist of sorts and loved to draw when he was younger. He hadn't done so in 40 years. This drawing he brought through feels very different than my others. Let there be Peace and Love on Earth!

December 23, 2014

I've heard from my brother again and he has been visiting our mom who crossed in 1977. Christmas time is a time of family and he must have sensed that I had been missing him. He said they had a Christmas present for me, another channeled drawing. I was so excited that my mom would be with him but I couldn't imagine when I'd have time to draw with all the things I have to do. But I just had to see what they would send me, so I channeled a drawing early the next morning and

have been fascinated with it ever since. Entura Art, which means entering the energy field and channeling onto paper, is incredible! I have always loved the mystery of not knowing what is happening as I channel my art. One symbol or image can convey many messages so I love looking and interrupting it after it's completed. I have learned so much this way. I finally had time to interrupt the message my brother and mom sent and I felt my brother was testing me again. Marshall and I have meditated for years and I channel our journeys to the spiritual world afterwards to gain greater details and

understanding. Our spiritual friends channeled all the drawings and messages in *Light From The Heavens*, so I've had lots of experience interrupting these drawings. I knew my brother and mom's message was not personal as I had thought it would be. The message that they were sending me to interrupt correctly is basically about 'the history of Christianity'. It begins with the gray images on top left illustrating aqueducts in Rome prior to Christianity, then flows to the beginning of Christianity and reflects it's continual progression illustrated by blue structures and an incomplete cross in the top center. Next it flows to the woman at the bottom left, who has social conscience but has not developed her intuitive and spiritual side but is on her way to do so. The finale of this message is illustrated by the large woman with a horse that is now emerging in our world. She represents the feminine light rising in both men and women applying Christ's teachings of love in body, mind and spirit. The incomplete light blue cross appearing as her clothes in this case means she has taken Christ off the cross and into her heart. She no longer relates love with suffering. She is leading us with her strength, love and mystical nature into the future. She allows the horse to carry her when needed as they are One in Spirit.

Marshall and I have already received confirmation from my brother. Many Delphi students participated in reading this drawing and also received positive results.

January 4th, 2015

Hi Friends, The photo is of our dad. He was 42 in this picture. My brother was 12 & I was 2 years old when he enlisted & left for Germany in World War II. He felt he had to go to help keep our country safe. He'll be visiting my brother soon at

his cabin. Marshall and I had the best visit ever with Fred. As you know he was frustrated so I told him to work with me until he knew what he wanted to do. He channeled through two drawings through since then. Before we began our communication, we felt that he had returned to his cabin. He was looking and feeling great. He appeared a bit older now, not old but he settled more into an age that he had enjoyed. Mom and he had a great visit mostly talking about family and me. When we got there he was outside his cabin cutting wood. I was surprised. I asked him why he was cutting when he only had to think it. He said he was handicapped for so long from his stroke that he wanted to do it himself. We laughed. I noticed that there were blue sparks around his head, like sparklers. It felt like inspiration to me but I didn't mention it. He suggested we all walk to the lake. We were there instantly. We could see two boys about 10 to 12 years old by the water and four older boys further away. My brother left us and went to the younger ones and began talking to them. We followed and I couldn't believe it, it was wonderful. He was teaching them how to start a fire by rubbing two sticks together. They were fascinated. I knew that his love of the woods and his desire to do something on our last visit had attracted both the boys and him to the lake. My brother had been a commander in four cadet squadrons of the Civil Air Patrol. He worked with younger boys and girls and also teenagers. He had received three Meritorious Service Awards and was honored at a congressional dinner in Washington, DC. He did this for most of his adult life. Both his son and daughter are still involved. Now, I knew what the blue sparklers were. He was happy helping the boys and at peace. He found something he loved to do. Before we left, I told him I really enjoyed channeling his drawings and suggested that he continued to progress with his own channeled art. He loved the idea and said he would. I told him that people were interested in our visits and several had asked that I send their love to him. He enjoyed hearing that. He said our dad was the first person he saw over there and he was coming to visit him soon. They wanted to do some fishing in the lake. I was so happy to see him feeling better. My big brother has always been there for me. I love him a lot! Isn't it interesting

how we feel the best when we are helping others in some way?

I hope you have benefitted in some way from my experience. If you would enjoy continuing to read my continuing diary, I invite you to visit my Facebook page, Patricia Hayes – Light From The Heavens where I post our communication. My method of art has been taught at Delphi for the past 10 years and many students are able to share Spirit with others through their art. In 2014, I initiated the Entura Art Internship Program at Delphi University with eighteen graduating artists. This year on September 11th I will initiate: Entura Art Masters Internship Program that will specialize in Art Therapy. I wish you love and the best New Year ever.

In Love and Light, Patricia Hayes

Beautiful Healing Stories

Hello Kimberly,

I am personally saying thank you for the week of energization and the love & knowledge that you and the rest of the staff share. That week has made a huge impact on my life in several ways. More than yourself have made a huge impact. I think all of you in your own ways have made an

impact.

You have taught me how to bring God's love into my life, not only to bring it into my life, but how to love myself in a way that I have never done before.

Steve has taught me to be gentle with myself, to forgive myself, for just knowing in my heart the change that I want to bring to my life is capable of coming. But if it does not occur immediately, forgive myself, it will come, just being aware is a HUGE key to the beginning of healing.

Linda, working with her one on one to help me with the energization process and learn it, helped me to learn the subtle touch and the gentle calling of the kundalini to rise up through the chakras.

Last but not least, Charles brought to my attention a crystal that would be good to meditate with, I purchased it, and as soon as I got outside of the gallery, it started to vibrate in my hand. It has definitely helped me with my meditation since I have come home.

All & all, I guess even though I was one of the last people you expected to see there for energization, I have consumed a lot and pray that I can pass it forward.

I am love, you are love & we are all love as one in God's eyes.

Love & Light, Lora Naratil

Hello Dear Teachers!

Sometimes we are quickly called into service to put into practice our teaching and abilities, as was the case with me right after leaving Delphi. I wanted to share this brief story as a way of saying thank you for the amazing learning experiences during Spiritual Anatomy and Energization I class that I very much had an immediate need

for...

On the Friday morning of my initiation, I learned that my brother-in-law who had been struggling with some health issues had suddenly become critically ill and may not survive.

Knowing he had not lived a particularly good life, I began work to move past my anger and hurt over how he had mistreated my sister, and recognized that I needed to utilize all my ego will to transmute these negative feelings and to be in service to God, move into my heart and embrace a larger, cosmic

perspective. By the time I had arrived at the airport on Sunday, he was very near death. Upon boarding the plane, I moved into meditation within a much higher level than I previously had been able to attain. After about a half an hour, with JJ Hurtak's "Sacred Name Sacred Codes" playing in my ear, I found myself energetically at the head of his hospital bed and began saying the Bardo prayers, whispering to him about all the good that I knew he had done in his lifetime, how loved he truly was, and to not be in fear or confusion...that I was with him and for him to look for the Light. I asked in the channel how the Energization Process might be used at this time in his life, and found myself instantly beginning to form the hand positions at his third eye and intermediate chakra, (my physical hands began doing so in my lap!) with the purpose of helping to draw his life energy upward. I called in Energia de Amour and Energia de Luz, and my hands moved amongst various places on his third eye, intermediate chakra, temples, and at the right and left side of the cap of his crown. I called in the Brother Lights and asked Master Jesus to bring the Light that joins the Earth plane with the Godhead, and I called in Akron, Enoch and UHR to bring in the Cosmic Light to guide him. During this, I was also calling to his cells, atoms and molecules to remember their Light origins, to look for the Light, and move towards it, open to it, and join it. I called in Shaller to help my hands transmit the needed healing light, and the amount of pulsing and light that was brought to light the lamps of the pineal and pituitary glands and form the Manger of Christ Consciousness was amazing. This went on for a bit all the while I was verbally reminding him of his true origin, the Love that was there for him, and the Light that would guide him. After a while, I saw a small, brilliant dot of luminescent bright white light coming towards him. I had the sense it was his Solar Angel to guide him, but within a minute, another one came from the right and another from the left. I then had the sense that they had something to do with the seed atoms of his Soul, and then saw a fourth one, much lower, and much cloudier, and of less intensity of white, and sensed this was his waning Life Energy. After about 20 minutes, I could feel the experience was done and I was drawn out of the meditation and back to consciousness. Just at that point, the plane was circling to come in to Chicago, and was moving out over Lake Michigan. The Sun was reflecting in the water and I could see the depths of the reflection in the lake's floor, showing me how the cosmos was reflected on Earth. As the plane continued, it moved further out and the shadows of the clouds came in waves over the waters, no longer able to see the depths, much like the shadows of his life. As the plane made its way back to land it passed over a multitude of sailboats dotting the waters. The Sun was shining down on them so they appeared to be floating luminaries. I felt a tremendous sense of peace and wondered if he had passed. A bit after landing, I learned that he had indeed passed, about one hour after this experience had occurred, and that his passing was very peaceful, with his heart simply slowing to a stop, and with no struggle whatsoever.

I share this story to thank you all for the amazing work you do and share with others, and my immense gratitude for opening a path that allowed me to be able to take part in this cosmic process with such grace and consciousness. **With Love and Light, Cheryl Wolf**

Hello Beautiful Souls,

It's Tracy Fink, from the June In-Depth Channeling course. Just stopping by to show some love. I've been meaning to share something with you all that really had a profound effect on me, and I hope it may touch all of you just as deeply.

The morning of our Individual Journeys, as all of us students split into groups with you teachers, I sat by the river awaiting my turn. Three butterflies flew around Diane and I, and we interpreted this as a symbol of the Holy Trinity. Now after my individual journey, I returned to the same spot to not find 3, but exactly 16 identical butterflies (the amount of people in our class).

As profound as that experience was, the morning of our departures home, I felt called back to that spot by the river. Again, there were 16 butterflies in the exact spot, but now with one beautiful rainbow butterfly. I was fortunate enough to take the picture, and every time I see it, it symbolizes our class and our cosmic connection. I've attached it to this e-mail so you all can witness part of my experience with Delphi.

I want to thank all of you for the knowledge and experience you have left with me. I truly am forever grateful. Just know you will be seeing me again very shortly! I hope all is well with everyone. **Love always, Tracy Fink**

Oh my gosh Kelly...I'm sitting in the college library with tears in my eyes. Thank you so much. I have been reading Rhonda Byrne's book "The Magic". It talks about how gratitude transforms your life. It is a 28-day program. One of the things on their program is that each time you send in a check for a service that you received to always write "Thank you-paid". To me that means always having gratitude for having the money to pay. So each check I send out now I write a little note of gratitude that I had the money to pay. Thank you-paid. The next part is really meaningful to me. Before the check is mailed out I take a minute to think of the week that I was able to spend at Delphi and how meaningful it was to me. That week was very transformational and I went through a very deep healing. Especially the Elijah travel, I was purging icky stuff for a couple of weeks. I was grateful for that. I also express gratitude that you and Charles blessed me by trusting me to give me the loan. I thought, "they are intuitive and will know my character". Then I express gratitude for all that Delphi does to bring healing and light into the world. I especially express gratitude for you, Charles and Kimberly. The 3 of you, unknowingly, made a difference in my life. Then I pray that God guides you each to continue bringing light into the world. Something as simple as sending a check out is a time to be so grateful for the many blessings. Each day I list the 10 things I am most grateful for and you, Kimberly, and the entire Delphi crew are always on that list. It seems like every day you are all part of my life.

It is truly a blessing for you to be part of the miracle that Nicole experienced. I have always been struck by the amount of love and closeness in your family. It seems that whenever someone in your family is in need, then the entire family is there for them. I feel that your family not only teaches healing

techniques, however, you are all role models for living a spiritual life.

You have always been a lot of support for me as well. Life has recently taken a transformative turn for me. I left the Corrections job. I just couldn't do it anymore. Every day I felt like I was dying in such a negative environment. I felt like I was becoming someone that I am not. I took a leap of faith and left. I have been concentrating on moving to the San Antonio area, finding work in a holistic treatment center, and starting my very part-time practice at home with holistic techniques. I plan on starting with what I know which is Reiki, and then gradually adding things I have learned at Delphi, things I will learn in the future at Delphi and other techniques. It just takes one small step.

I love the subject on imprinting and will be excited to take RoHun. I really believe that knowledge on imprinting will someday make great advances in curing drug addiction. Your Mom was way ahead of her time.

It's funny that you say that about the job coming out of nowhere. A little voice in my head today said, "Don't worry about finding it on the internet. It will come to you". You confirmed that for me.

I am a notoriously quiet person and my friends would be shocked that I have written such a long email today. However, I had a great deal of gratitude to express today.

Thank you again to Nicole for being willing to share her hope with the rest of us. Also, much love and gratitude to the entire Delphi family.

I'm usually pretty private at publishing any of my correspondence. However, I have so much gratitude to Delphi that I would like to shout it from the roof or fly banners in downtown San Antonio freeways. If you would in any way like to use this to give any other Delphi students hope I am OK with that.

I hope to see you all soon. Delphi is a little like being in a candy store though. I want to try everything and can't decide which one to try next. **Love to you always, Evelyn Reavis**

Hello Patricia,

Its Kym Manni – Long time no see! I think of you often and miss you very much. I am now living in Miami Florida for the last 7 years working for the University of Miami Hospital. Things are going very well for me. I feel very strongly that the foundation you provided me at the school is the foundation of my success. I am the Chief Operating Officer now at the hospital. The doctorate degree I earned from the school was what helped propel my career. I am feeling like I need to get back to my roots and saw that you have this online course. It is difficult to get time off which is why I was intrigued that this course was online. I look forward to hearing from you. Please give my love to Marshall and all! **Kym Manni**

Living Your Soul's Journey

by Vikke Ford

After having graduated from Delphi in 2010, it has been a journey to see all the ways that my training from Delphi can be shared with others.

Back L-R: Anya, Vikke, Nadia Frt: Liana

This year we found a unique and beautiful way to share our healing gifts and love; hosting a child from Latvia. It has been such a spiritual journey as these children are orphans due to their families not having enough money or simply not being able to care for them. My family was gifted to host two children, one who couldn't speak English and one 9 year old who was fluent in English.

Being able to share your life, your healing energies and your love is heart warming. You don't have to choose to adopt, just share your home and love. These children speak either Russian or Latvian and some even speak English very well. Some children are from China and the Ukraine. It was fun as we learned Russian while she learned English. Learning about other cultures is such a great experience, and love transcends the language barrier. Anya, my 15 year old and I have grown in love, tolerance and compassion.

As soon as we saw our host child's picture I knew I had experienced at least one past life where she was my daughter. It is heart warming to meet again as only my Delphi family can appreciate! She believes in angels and loved having her first healing at Delphi.

There are several hosting companies such as P 143 and Open Hearts and others in the western parts of the US who also work throughout the US. I just wanted to share with my Delphi family as someone was kind enough to share the program with me.

Hosting occurs for 3 to 5 weeks each summer and Christmas. If you have any questions, feel free to contact me at vikford@aol.com. Blessings! Vikke Ford (and if you are from Georgia or surrounding States, I can do your home study!)

Thank you.

Greetings from Bolivia! Hello everyone!

I hope this email finds you well! As you may know, I recently moved overseas to Bolivia, where I will be for the next two years. I am now set up with internet and phone, so I am plugged back into the matrix. So far my transition has been very smooth and I know I will really enjoy my time here at the world's highest capital.

Even though I've only been here a few weeks, I have already experienced a "Vine of the Soul" healing ceremony with a group of shamans here who work in the Hopi tradition. My next step is to connect with the Kallawayas, a local native tribe who are well known healers. In two weeks, they will be hosting the Siletz tribe (of Oregon, USA) for a cultural exchange; I look forward to attending a few of their events, which will include ceremonies and presentations.

La Paz, Bolivia

Now that I am plugged in, I will be available for Skype sessions starting this coming Monday, August 11. You can book directly through my website. Also, you will notice on my website a new page titled RETREATS; I will be hosting a group retreat in 2015 here to explore the beauty and spirituality of both Bolivia and Peru. If you are interested, let me know! Right now I am thinking May/June. Outside of that, I will also be hosting one-on-one retreats for anyone interested in a more personal experience (2 people max at a time).

Thank you, and I look forward to connecting with you all soon!

In love and light,

Transpersonal Hypnotherapy 1

A Powerful Spiritual Healing Tool

With Dr. Yvonne M. Christman

DATE: May 5-10 (6 full Days)
Class begins at 9am, May 5th
and Ends 6pm May 10th

Our focus is on providing a powerful academic and experiential process that is transformative and teaches you how to use the inherent resources of the Inner Self to create miracles of healing for yourself and your clients.

Although hypnotherapy is an independent clinical form of therapy, our approach is to teach integrative techniques that will empower any form of trance therapy and especially our RoHun™ processes. We offer progressive and systematic methods that enhance traditional and spiritual processes to enter the interior mechanisms of the sub-conscious mind.

In RoHun Therapy, we perform very sacred processes in the **unconscious** mind. However, there is a level of the psyche that precedes the unconscious, which is known as the subconscious mind. This level of mind is primarily cellular as well as cognitive and emotional in nature; it is the mind the ego uses before the ego is integrated into the essence of our soul.

You are invited to come and assist us with activating our soul-centered intention and to provide comprehensive training with high standards of excellence in the field of transpersonal hypnotherapy for use as a **primary career** or as an **adjunct** to all other professions in the healing arts.

Prerequisite: None

Purpose: To Provide the Student with powerful tools to unlock the power of the subconscious and unconscious minds to heal the source of deep issues and soul wounding for their clients and self.

Cost Of Class: \$1,375.00

Room and Board: \$718.00 (Includes all meals including dinner on the 4th and 10th and Breakfast on the 11th)

Airport Arrival: May 4th - 2:00pm Pick Up (Atlanta Hartsfield Only)

Yvonne Christman is the instructor for the Transpersonal Hypnotherapy program. She is a Doctorate level RoHun™ field instructor teaching Bachelor's level RoHun™ and two year internship programs in clinical and transpersonal hypnotherapy in the United States and South Africa.

New Books

Outpost Gypsy Tree: The North Portal

Author Dottie Graham

Nestled within a thought-form in Earth's vast realm, Outpost Gypsy Tree becomes home for six adventurous teenagers from various parts of the world. Charged by their own desire for peace and love for humanity, they are assigned to clear the earth's light portals of the evils of mankind starting with the North Portal. To do so, the teens must journey back in time to the winter solstice of 3107 BCE

to decode an archaic sequence within Ireland's historic Newgrange, that will unlock a Neolithic chamber leading them to the 'other world' of the gods of Erin. To prove their worthiness, courage and commitment to battle the darkness, they must journey through the traitorous Cave of Damnation and face an encroaching inferno. At the core of this bizarre journey is the staff of Outpost Gypsy Tree: Eittod of Tulsun Minor, an ancient being with a rainbow-colored body, and Bezen and her son, Mingo, inhabitants of Early Earth.

Dr. Dottie Graham, DR, RN, HTCP/I, QM is the CEO of GISA (Graham Institute of Self Awareness) and VCHT (Virginia Center for Healing Touch), Pastor, GISA Healing Sanctuaries of Hampton Roads and Richmond and Certified Instructor of

Healing Touch Program (HTP) Levels 1-3.

'The Jenga Day'

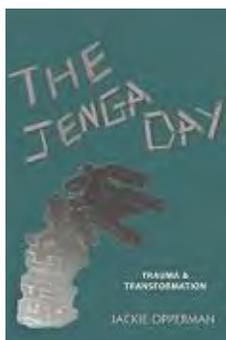

Author RoHun™ Doctor Jackie Opperman

'The Jenga Day' was written in 2013 and published late 2014. This unique book plunges us into one unforgettable day and the comparative lives of four children. A trauma at school launches them into an irrevocable journey where their separate personalities and backgrounds create a vivid

landscape of change, acceptance and resilience.

In the second and third sections of the book Jackie skillfully slips from fiction into riveting and practical guidance where first she focuses on a wonderfully simple and fun hand book to help children who have or might face trauma in their lives. Secondly she provides adult readers with an in depth but accessible guide book into the complex reality of how our own personality traits and responses to situations influence how we deal with trauma and challenge.

In Memoriam of Julia Allen

'Til we meet again'

We wish to acknowledge and send our fondest farewell to our dear friend Julia A. "Judy" Allen of Waite Hill, Ohio who passed away Tuesday October 14, 2014 at the age of seventy-five. Julia was the beloved wife of the late Edgar J. "E.J." Allen Jr, and the mother of Kenneth J. Allen and the late Michelle M. Allen. Judy was a practicing Master RoHun™ Therapist and a dear friend of Delphi for many years.

Julia and her husband E. J. began their studies at Delphi in 1986, just after the school had relocated to its present location in McCaysville, GA. They brought their children to Delphi for graduation and later introduced them to our classes. I have always loved and had great respect for families that grow together. It is how we all became very close and very good friends. As really good friends we shared so many wonderful

times together and some really painful ones as well.

We celebrate your life Julia. Your laugh and fun demeanor will be greatly missed. I honor your life and your work as a psychologist and as a Master Ro-Hun™ therapist. You always said yes, no matter how challenging the task. And you never quit. You are and always will be a dear friend.

We will see each other again one day. Until that time, my love and many blessings go with you.

With great Love & Respect, Kimberly

Welcome Audrey & Bob Delahunt to Delphi

It is our honor to have Audrey sharing her many talents and abilities at Delphi. Our Luminara Wellness Center is also blessed with her presence. Audrey is also our new director of Luminara and is now certified to do Cryofacial Treatments. Thank you Audrey and Bob for coming and for offering yourselves in service.

A Special 40th

We wish everyone a Happy and Prosperous New Year in 2015. 2014 served to be a great year for Delphi, but it also was a special year that served as a milestone. 2014 marked the 40th year of service for Delphi, which was officially opened by Patricia Hayes in 1974 in Miami, Florida. So, please send your Love & your Light to wish...
