## Sound of God's Love

This drawing channeled in late 2017 illustrates the Sound of God's love flowing through all within the Light of The Heavens and on Mother Earth to create greater Love and Unity than we have ever witnessed before. This past year we have seen the dark shadows within mankind that divide one from another over disagreement of choice. However, we as the Brotherhood of Mankind have risen beyond this to honor God's gift of Freedom of Choice.

Sound of God's Love illustrates the beauty, fellowship and unity of those in the spiritual and physical world that choose the high way that allows others to disagree without separating from them. The Golden Bird in center is radiating the light of all spiritually aware beings within the heavens and earth that are choosing love over hatred, unity over chaos, peace and freedom of choice over domination. The heart, golden book, musical notes and colorful beings, illustrate all of us that know that God's Love centers and emanates from us always to help those in need. God Bless Freedom, Peace and Unity, We are Many, We are One.

# Art as viewed in the Light of Mystery Wisdom

by Marshall Smith

Amongst the confusion and lack of contentment that we see in our world today, it is not difficult to understand why an equal force of Spirit is impressing our Soul towards the Light of Wisdom. We are spiritual beings living in a world of duality with the freedom to choose who we serve. We, as Spiritual Initiates, are the chosen ones to act on the Light of our

Spiritual Wisdom. Our path has brought the reality of the spiritual world so close that with the utmost singleness of thought, we are able to help others know they are not alone in their search for greater light in their life and our world.

We are able to help others that are searching to understand why our world is in disarray. The Ego of Mankind has been placed at the focal point of the development of consciousness. Ego, our rational self that utilizes our left brain to direct our physical lives is presently being stretched to know that it is not alone. We are much more than just rational beings. We have a Higher Self, that is able to utilize our intuitive and illumined mind within our right brain. We are spiritual beings having earthly experiences for the purpose of discovering our divine origin. The Ego of Mankind must discover their Higher Selves before this is possible.

A Spiritual Initiate is one who is aware of their Higher Self and able to serve God through serving others that also are searching to discover the true essence of their Being. Spiritual Initiates have the power to harness and utilize the wisdom within their Egos to discover their illumined minds and walk hand in hand with their Higher Selves.

Recently, I received a letter that stated; I notice that you use the word creation in your writings and teaching. Would you please elaborate on the meaning of the word as you use it?

Many refer to Creation as described in Chapter one in the Bible's book of Genesis. The story is generally accepted as a one time event rather than an ongoing process. As we might say; God completed his creation and retired to let His and Her appointed created caretakers subdue the earth and to take care of it. At

the completion of Creation, God slapped hands together saying, "It is very good". He then sought rest, perhaps a comfortable rocking chair from which to observe His and Her caretakers. If one listens carefully, one can almost hear God, bathed in those astonishing frightful emotions, weeping, and later a boisterous laugh as his and her minion's flit here and there attempting to find some purpose in this great and confusing mass of matter and light.

In a more serious note, both matter and soul are extensions of God and are thus inherently divine. From the book of Genesis also, God formed man out of the matter of earth (dust). When the dust man appearance and content matched that of the image of God's image, God then added the divine breath through the nostrils and the dust man became a living soul. God used earth to form the image of man and used the divine breath to give life to the man of matter. This process is replicated in every baby that is born across the earth. The baby issues from the womb and as he or she is lifted out and slapped on the rear, a breath enters the lungs and he or she becomes a living soul, a created body and soul.

A simple constantly occurring example that demonstrates the creation process occurs in the bringing of a new little baby into the world. When two come together, a babe is created in the womb of the mother. The babe begins from one cell and continues to grow to adulthood until the complete family of thoughts of the indwelling soul is expressed in that body. A family of thoughts is the totality of all previous thoughts from every past life experienced by that soul from its beginning to the present. This creational process comes within the scientific arm called physics.

Patricia Hayes, my love of 37 years enjoys channeling drawings from the spiritual world. Sometimes a picture is worth a thousand words when attempting to convey a complicated concept. The image above was channeled by Patricia when our granddaughter, Charee, was in her eighth month of pregnancy. The drawing illustrates the

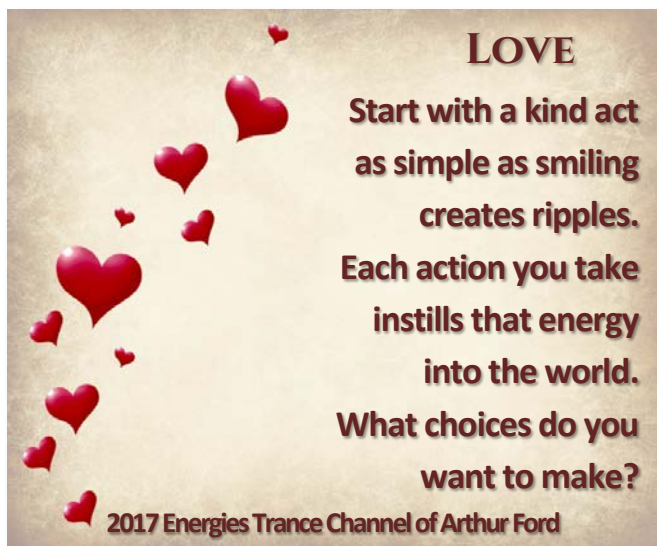

words I conveyed. The upper left hand of the drawing as you look at it illustrates the conception and early development of the babe. As you bring your eyes downward past the white strings into the blue, you will see baby Lily between an aqua streak on left and white illustrating her face and body on right. There is another aqua streak and a spiritual being in purple watching over the birth. You will see other spiritual beings in darker purple below in white with heads bowed depicting the importance and reverence of all births. If you shift your eyes to the far right, you will see a small spiritual being in aqua with golden hair beside young Lily, the smaller figure in white. She is being introduced to Her Higher Self, the very large being. If you look between young Lily and her Higher Self, you will see a tiny white diamond, illustrating she is clearing hearing and understanding what her Higher Self is sharing with her.

Below the Higher Self, you will see a girl and a dog illustrating Lily will always have a love for puppies and dogs. The blue canopy below with the tall woman in purple at the edge looking inward illustrates Lily seeing herself in a past lifetime involved in spiritual healing demonstrating that she will also be involved in spiritual healing in this lifetime.

Lily is now nine months old. She took her first steps yesterday. All of what is observed in this world as matter and soul follows the same creational process as bringing the baby into existence, whether it is the largest mountain, a

grain of sand, a massive heavenly body or the most exotic rock. God was and is the first creational physicist.

# ABOUT HEALING

By Charles Curcio

My personal inspiration for healing came to me when I first watched the 1980's hit movie, *The Karate Kid*. In that movie, teenager Daniel LaRusso moved to California with his mother and was soon bullied by a group of Karate chums who were also students in the same high school.

After suffering a severe beating, Daniel is rescued and then assisted in learning Karate by his mentor, the reclusive maintenance man Mr. Myagi, who prepares him for the upcoming Karate tournament with the bullies. During the semi-final match, Daniel suffers an illegal injury to his leg and is seemingly knocked out of the tournament. Now comes the inspirational part. Kensuke Myagi closes his eyes, takes several deep breaths, rubs his hands together and places them on Daniel's injured leg. Within a short time, Daniel is healed and goes on to win the tournament. "Oh my God", I exclaimed to myself immediately. "Wouldn't it be great if we could actually do that?" Little did I know that 10 years later I would learn that I could do things like that and more, and that ultimately my life would be devoted to healing.

2018 has arrived. It is a time of light, of grace, of blessings, and of significant challenges playing out within ourselves and within our world. The year 2018 is all about healing, and will be remembered as a crucial time in our journey to enlightenment. For it is the time that true healing can occur both within ourselves and within our world, if we choose it to be so. All healing begins with Self-healing, and we always rise to the task as we are able. The purpose of spiritual healing is spiritual awakening. In our spiritual practices, each of us has the opportunity to touch others and to share God's love and healing. And in so doing, we introduce them to the world of Spirit and the role of Love. We participate in their awakening and in their healing as well as their spiritual development. What an honor to be blessed with such an important purpose and responsibility. As Patricia Hayes has said so eloquently, "The only eyes, the only heart, the only hands God has on earth are yours and mine".

By the time you read this, we will have completed the new Temple of Healing, a unique and exceptional place unlike any other, whose purpose is to share God's healing love with those in need, and to train healers to

go out into their communities and into the world to help others. Our plan is to do more. We would like to extend the healing energies of this sacred temple out into our communities through our healers, and to network through our professional associations and the internet so that those in need can find you wherever they live. The ability to share love, light, and healing creates faith, hope, and understanding, a sense of trust and well-being, and is one of the finest gifts you can give to another. When they feel, they know. Personally, I feel great joy when I am able to participate in someone's spiritual awakening through healing and teaching.

Let me say it again: "All healing begins with Self-Healing". Notice the capital "S" in Self. This could mean your Higher Self, the big Self, or S could stand for Soul. It could even represent the little Self, the human self, trying to figure it all out, the one who has to be remade into the image and likeness of God, and the one who won't go down without a struggle. I say it means them all. It applies to all aspects of self, Soul, and Self. As the Christ said to his disciple Luke, "Physician, heal thyself". Now is the time to act, the time to heal thyself. To dedicate or rededicate ourselves to what we know is the true purpose of our being. Many of you have been on the path for decades. Others are fairly new, and some are in-between. Many are just now awakening. In substance, the old paradigms are breaking down, now being replaced by the new paradigms of spirit.

We are all human beings, remarkable children of God, spiritual beings in human guise, who have come here with a purpose and a mission. If you serve God now, you've done it many times before. To borrow a bit of American slang, "This is not your first rodeo". But being human, it's easy to get distracted, easy to be lazy, easy to get tired, easy to go astray, easy to resist, to be indifferent or complacent, even to be misled. But now is the time to redouble our efforts. If there is something remaining within you that needs to be healed, now comes the best opportunity to help yourself. The clearer you are, the better healer you will be, and the easier your ascent. Focus now on what you need to heal within, and on being and expressing your greatest Self. Contact that healer, that therapist, your Higher Self, your spiritual friends and helpers, all those that can help, and make the commitment. Ask for what you want. Ask for what you need. And my favorite surefire request, taught to me by my beloved Kimberly, ask for what you can give. The Grace of God has never been more abundant or more available than it is now. After all, the darkness is working hard, hard in desperation. If they can stop us, they can stop the plan.

They know that their dominance is ending, and they are making their best and last ditch efforts against the Light.

We are in the time where light proceeds full time. Through light we learn everything we need to know about ourselves. No longer are we tasked to learn through obstacles, through pain, shadows, and mistakes. I know it takes time to adjust to the idea of something new, or a different perspective than which we are accustomed, particularly if we have felt so negative about ourselves, or even our relationship with the earth. I know there was a time or two that I thought this earth was yucky. Yet, how could I do what I do without the love of Mother Earth supporting me in all I have taken on, or the assistance of the Divine in everyday life.

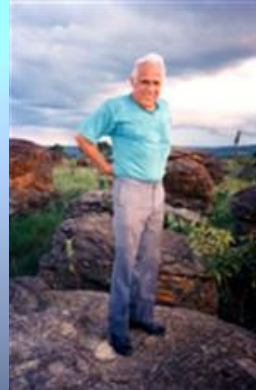

As I reflect, I look back at all the roads I have travelled. Each experience has been a stepping stone in my development that ultimately led me to Delphi, a place to which I would dedicate my life. I have met extraordinary people here, beautiful souls so eager to learn. It doesn't take long to realize and to know that all healing occurs within, and cannot happen without the assent and participation of "Self". I have had the privilege to share my healing gifts, and assist in expanding self-awareness. I can only say humbly and inadequately ..... WOW! I feel so blessed to be a part of the big picture, to participate in those things that really matter. I love helping others heal and to discover their true divine person, as the shadows move away from false perceptions of "Self". There is no finer role we can play than to serve God by helping others. It makes me feel good about me and about you.

I would ask that you make that final push. Focus on healing those aspects of self that no longer serve you. Ask not only for healing, but also for the wisdom to help yourself and others. Shine your light out into the universe and invite all those who can benefit from your love to come. It is my understanding that we have a window of 10 years to finish the work, and every one of us is needed. If you're ready to make the commitment, then God is ready for you.

Love, Light, & Infinite Blessings to you in all you do. We hope to see you all at the Energies of 2018 Weekend and the New Temple of Healing dedication in early February.

# To All our Delphi Friends,

by Patricia Hayes

There's lots of excitement at Delphi over the new Mauricio Panisset Temple of Healing. I can't tell you how elegant and beautiful it is. It truly reflects the beauty of Delphi and Mauricio's healing work while he was with us in physical form. Now, he visits us in our meditations. Without doubt, Mauricio always attends Kimberly's energizations as she carries on his healing work. While he was on earth, he was a Diamond, reflecting the Light of the Heavens as his Healing Light helped so many people. If you haven't seen the movie, *Man of Light*, it's a must. It's an incredible tribute to the healer he was and still is.

*Kimberly, Mauricio, and Danielle when she was five years old*

The photo above was taken soon after he moved here from Brasilia, Brazil. I can close my eyes and still feel the excitement we felt when Marshall and I drove to the Atlanta Airport in our camper to pick him up. We had just returned from a workshop in Calgary Alberta and had gone to Banff for a few days of rest and relaxation before coming home to welcome Mauricio.

Those of you that know me well know that I always carry my Entura Art supplies with me wherever I go. I remember sitting on the bed the night before leaving and channeling two drawings to surprise Mauricio when he arrived. Back in those days, my art wasn't as developed as it is now. However, Mauricio's drawing is

still as beautiful as any I do now. His energy flowed through effortlessly. There was no one like Mauricio. He called Marshall his Brother Light and he truly was! He was a joy to be with, talk with, and work with. I know we all will feel him even more often once his Healing Sanctuary is complete!

## **Esoteric Secrets About The Mystical Path**

by Patricia Hayes

What makes The Mystical Path any different than the beautiful nature path that you have walked upon or any other spiritual path that seekers follow? If you remember, in your first lesson you read about Bhakti Yoga and that it is the system of Yoga that teaches you how to attain Oneness with God through loving devotion. It is also the system that most follows The Mystical Path to Enlightenment.

The Mystical Path is not limited to the physical plane such as the beautiful nature path is. The Mystical Path

Are you aware that Delphi  
University of Spiritual Studies  
offers online Self Enlightenment  
Correspondence Courses?

[www.selfenlighten.com](http://www.selfenlighten.com)

flows beyond time and space and spans all dimensions from the physical to the highest dimensions of God.

The journey is filled with awe and wonder, self knowledge and direct experiences with the spiritual world. The Mystical Path appears as solid as the nature path. However the incredible nature, colors and spiritual beings that you see and experience on The Mystical Path are more vibrant and radiant. Your inner hearing is intensified and your spiritual vision continually becomes clearer as you expand your mystical/light body. The Higher spiritual beings are able to give practical guidance with situations in your daily life and in a moment transport you to a higher dimension to show and teach you about the highest dimensions of God. The cleansing and purification work that you will accomplish is far more effortless. Permanent healing occurs because of the depth of profound spiritual understanding that you are able to access on The Mystical Path. You are able to feel your spiritual progress each step of the way. You continually spiral to new and higher states of illumined mind and being. You no longer hope that the spiritual world exists. Because of your direct experiences, you know without a shadow of a doubt that God and the spiritual worlds exist.

There are three esoteric secrets that you must know to successfully walk The Mystical Path. All have a profound effect of your spiritual progress.

The first esoteric secret is simple. It is the reverence you feel as you enter your state of meditation that sets the tone of your Intention. If you enter your mediation in a sacred state of mind ("rather than feeling your meditation is just another thing to do") and feel thankful that you are able to spend time with each of The Avatars, you will see things and experience healing beyond your greatest expectations.

The second secret is also simple. It is the loving connection and feeling of Oneness that you establish with The Avatars in the beginning of your meditation that allows the depth of profound wisdom to penetrate and fill your consciousness. The greater your sense of love and the stronger your feelings of oneness with each Avatar, the greater and more profound your spiritual experiences will be. All wisdom flows through a sense and vibration of unity and oneness.

The third esoteric secret is also simple. Simplicity is always profound. It is your sense of appreciation and feeling of joy for what you have accomplished that inspires and catapults you to the next step and even more wonderful stage of your development.

## Integral Healing – Your Soul’s Journey!

### Seven Realms of Transformation!

By Cheryl Wolf, Doctor of Transpersonal Psychology and  
Licensed Clinical Counselor

It all begins with those first moments and years on Earth, when survival depends totally on others! We discover, in steps, who we are and what life is all about on this physical planet. Then, after years of life

experiences, we are guided by a deep stirring from within, and urged onto the spiritual path, where we discover a more powerful sense of who we truly are – a spiritual being, a Soul! And then what life is all about changes profoundly...mystically!

This discovery leads in many directions, many paths. Ultimately, we begin to feel the vital life force of our Soul, and learn how to connect with it, gain insight and wisdom from it, and allow our physical presence to be in service of it. Our Soul, through our energy body, is easily accessible through our breath, meditation, active imagination, and intention to name a few! It provides us with a system for expanding awareness of our potential, gaining clarity and wisdom to move beyond limitation, and understanding how to heal from the diseases we attached to in life.

Our Soul then becomes our partner as we learn to co-create the life we want, engaging in a process of transformation of any situation where we feel stuck! We can make new choices and life changes from our Soul’s creation energy as *honest seeking brings answers that change your life!* Use these questions when feeling stuck, to let your chakra energy system lead you into living your potential!

#### 1. Root Chakra: Do I belong here?

- We all “long to belong” - Determine the changes needed to develop a sense of belonging.
- Or discover if this is where you truly **want** to belong...or not!

#### 2. Sacral Chakra: How are my relationships with the others?

- Do I need to set boundaries?
- Or move out of my isolation?

#### 3. Solar Plexus Chakra: Do I embody my own sense of authentic power?

- What can I do to feel equality?

#### 4. Heart Chakra: Brings movement – beyond old hurts/wounds incurred – to Love and Compassion

- What is blocking me from Love?
- Can I change it or do I need to move on?

#### 5. Throat Chakra: Brings healthy expression of Inner Truth and Divine Creation soars into life!

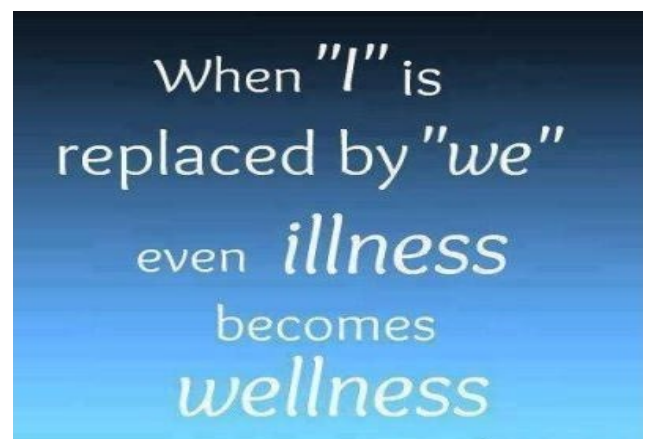

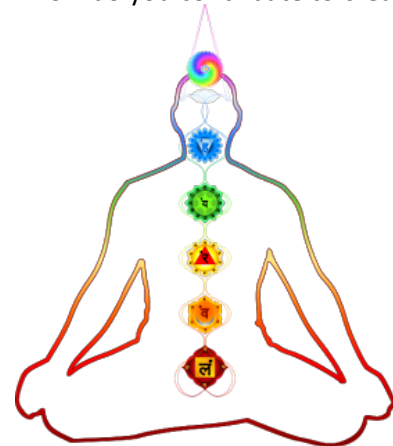

- Am I expressing my true thoughts, feelings, ideas?
- What needs to happen for me to be honest and in integrity with my expression?

#### 6. Brow Chakra: Brings expansion of vision – allowing your inner visionary to see deeply into yourself, others and your world.

- Is there wisdom from your spiritual nature that you are not listening to?
- Are you only seeing things from your ego, struggling to make sense of things in the larger perspective?

#### 7. Crown Chakra: Brings connection to your Spiritual Source where you discover the expansive power of the Cosmos and develop understanding that all things are connected.

- Ponder how this stuck place is part of a larger pattern?
- How do you contribute to creating it?

## FLYING WITH MY HIGHER SELF - Robert Maldonado

What would your life be like if an ascended master like Jesus or the Buddha came to earth, and you could have a personal conversation about everything... Everything, including life, death, the afterlife, the spiritual path, becoming a better person and realizing one's full potential? What if this being was to remind you of that ageless truth that you are your higher self? To listen to and trust the guidance in your life and follow its voice, so as to become acquainted with spiritual things in a way that was impossible without it? You are the pilot of your life and always, always remember that you are not flying alone. One summer morning the author met Sam Watson, a helicopter pilot. The author's life changed forever.

Once upon a time, a helicopter pilot came to earth and proclaimed to be a master teacher of the Truth. The truth that humanity can realize their God-Nature by becoming their Higher Self...

## VOYAGER TAROT ∞ Mindfulness Psychology

This revolutionary new way of using the ancient art of Tarot is a new meta-psychology. It is a path for becoming the "Universal Human" by "doing it yourself" through a "transformative mindfulness practice"; for living whole through a healthy mind, body, heart and soul, and for being successful in life through interactive and psychological "roadmaps" which Voyager can provide. This "educating" style of counseling yourself and others through the Cards has re-imagined and reinvented psychology as a self-defining, self-supporting, self-guiding and self- navigation tool for the 21st century.

## Entura Spiritual Art Institute

Delphi University is very pleased to launch the Entura Spiritual Art Institute and its new degree programs that incorporate the profound modality called Entura Art, developed and advanced by Patricia Hayes. The Entura Spiritual Art Institute offers a multiple level course curriculum that teaches the aspiring Entura Artist in the theories, techniques, and therapy modalities of healing one's self and others using Transpersonal Art.

**What is Entura Art?** Entura means "entering the aura," or, in other words, entering the energy field. The Entura Artist is taught to enter the energy field of his/her subject – one's self, another person, a place or thing, a past or present time period, or a spiritual concept like love, harmony, and wisdom – to channel and convey intuitive understanding and messages related to that subject and to bring about needed and appropriate emotional and spiritual healing. Entura Art is an artistic form of alchemy that transmits both psychological and spiritual precision by way of symbols and colors that flow onto the canvas.

**What is a Transpersonal Art Therapist?** A Transpersonal Art Therapist provides enlightenment and opportunities for healing for self and others using Entura Art symbols, exercises, color, sound, and various art media to connect directly to the Divine Source of one's being – and, in so doing, find clarity, understanding, and meaning. The processes and techniques used by the Transpersonal Art Therapist bypasses the critical factors of rational thinking and mind chatter to attune one to his/her creative and intuitive nature.

The art serves as a record of the events that individual has been exploring. The Transpersonal Art Therapist helps the individual expand upon and understand the images and symbols that arise, relating their meaning to the issues or intent of that individual. The individual is then able to reflect on his/her artwork to understand his/her life event or situation with greater clarity.

Our eyes are our window to the Universe. And, our "inner eyes," that is, our inner sight, is the means of intuitive understanding and spiritual growth. Entura Art combines our inner and outer sight into a beautiful and profound means of intuitive expression. The Entura Artist simply allows his/her hand to be directed by a Higher Guidance, knowing that the energy and appropriate intuitive understanding will be conveyed to the paper using soft pastels. ***No artistic training or ability is required to be a powerful Entura Artist.***

**"A picture is worth a thousand words."**

~ Old Adage

It is true! A picture, a visual image, can convey deep and complex ideas, arousing subconscious feelings and emotions. It can bring a new and surprising level of understanding to the Entura Artist who understands and to the Entura Artist's clients. With Entura Art, the artist is trained to be a clear channel of energy, to allow his/her hands to be directed by a Higher Guidance, and to use his/her intuitive impressions and knowledge of symbols to realize a deeper level of "knowing" and understanding that emerge on paper about any number of topics and issues for him/herself and others. S/he becomes the vehicle for communication, healing and growth whether it is reconciling emotional conflict arising from the past or the present, expanding spiritual awareness, exploring high concepts, or sustaining personal connection and communication with the Higher Realms.

As the student continues in his/her Entura Art studies, s/he experiences on a deep heartfelt level just how art unifies us all to reveal and understand God's iconic memorandum. It is the universal language that touches the soul of all who listen to and feel the strokes and color of motion, knowing that, from this motion, s/he is extracting the messages of truth imprinted on the ethers.

As a form of therapy, Entura Art has meaning to a variety of people and ages – children, teens, adults, couples and seniors – helping each to reveal unconscious or emotionally-charged feelings that may be impossible to access by talking alone.

Each level of study in the Entura Spiritual Art degree program takes the Entura Artist into deeper and wider awareness, sharpens intuitive clarity and accuracy, and engages him/her in a powerful visual medium that brings insightful healing.

## Entura Spiritual Art Program Transpersonal and Psychospiritual Art

### Level 1 – Entura Artist

**Entura Art I – Intuitive Channeling and Clearing through Art.** The first Entura Art class introduces the process of intuitively tapping into one's self, another person, or a concept, and expressing those intuitive messages through soft pastels. **Length of Course:** 5 Days

**Course Tuition:** \$1,695 includes lodging and meals

**Entura Art II – Opening the Creative Zone.** Entura Art 2 discusses the Entura Artist as the Mystic, expanding and refining the Entura Artist's abilities and self-awareness while opening up his/her intuitive channels to the Creative Zone, that is, broader spiritual connections and additional means of expressing spiritual communication. In this class, the Entura Artist also learns the art of Soul Portraits while expanding his/her refinement techniques and interpretation skills.

**Length of Course:** 4 Days

### Level 2 – Bachelor of Entura Art

**In-Depth Channeling.** A prerequisite to all Delphi degree programs, In-depth Channeling is one of the key foundations of spiritual practice, helping the student develop, refine, and express spiritual gifts and intuitive abilities, using time-proven methods to become a clear, accurate, and consistent channel of love, light, and healing. This course may be taken during Level 1 studies.

**Length of Course:** 8 Days

**Tuition:** \$2,475.00 - includes lodging and meals

**Advanced Channeling.** Designed to awaken and enhance spiritual memory and sight, and to strengthen one's spiritual channel, this intensive training includes the study of the history and practices of Ancient Mysteries, while intimately studying and purifying one's mental/emotional auric field and transmuting Karmic energies that limit spiritual progress and permanent

healing. In addition, Sola, the skills of advanced soul travel, and Soul Life Readings practices are reviewed in this course. In-depth Channeling is a prerequisite to this course.

**Length of Course:** 5 Days

**Tuition:** \$1,975.00 - includes lodging and meals

**Entura Art Symbols and Interpretation II.** As the Entura Artist advances in his/her abilities to connect and channel spiritual messages, the symbols become more expressive with richer, deeper, and more insightful meaning. **Length of Course:** 1 Day

**Tuition:** \$335 - includes lodging and meals

**Entura Art V – Art and Sound Therapy.** The Entura Art V course teaches a profound healing therapy, designed to discover, understand, and heal the “Special Self,” that core part of one’s psyche that limits one’s progress toward realizing a full and prosperous life, finding and sustaining greater spiritual connection, and walking the path of a life purpose fulfilled. This modality uses specific sounds and channeled images to stir and access deeper life-limiting thoughts and feelings for purposes of discovery and insight to bring about this healing for one’s self or others.

regression, psi-scan, subliminal and distance healing, and trance healing, the channeling of Spirit Doctors for the purpose of healing.

**Length of Course:** 7 Days

**Tuition:** \$2,475.00 – includes lodging and meals

**Integrated Healing Arts.** As a powerful means of discovering and healing, Entura Art is a natural complement to the modalities learned in Healing Mysteries. In this course, the Entura Art Therapist learns specific ways to incorporate Entura Art into the metaphysical healing modalities learned in Healing Mysteries so that his/her clients may discover and understand what imbalanced energy needs to be healed and to deepen the healing with additional understanding and insights about moving forward.

## *Opening February 3<sup>rd</sup>* **Mauricio Panisset** **Temple of Healing**

The Mauricio Panisset Healing Sanctuary at Delphi was inspired by and is dedicated to the memory of this wonderful man and great spiritual being. Possessing the gift of “Light”, as described by Shirley MacLaine in her book *Going Within*, Mauricio dedicated his life in service to God and to his fellow man. His humility, love, and grace will always remain a shining example to each of us, as will his gifts of light and healing which he shares on an ongoing basis with the students of Delphi and all seekers of light.

For many decades the Mauricio Panisset Healing Sanctuary has been used to provide spiritual healings free of charge for all those who come here. The Sanctuary is a place where God’s love, light, and healing energy has been in abundance. We have witnessed many miracles, and all who have come for healings have benefitted. We have been so blessed to direct, participate, receive, and to share God’s love in helping others. We will be doing healings in the Mauricio Panisset Healing Sanctuary for the last time on February 2, 2018 at 7:30pm. The next day we will dedicate and open the new Mauricio Panisset Temple of Healing, a 54 foot high healing pyramid located across from the Temple of Wisdom, where we will continue and expand our healing work. It is with a warm smile and deep sense of appreciation that we say good bye beautiful sanctuary building. You have served us well. We know that you will light up our lives in your next role at Delphi where sacred love and wisdom continue to inspire us all.

Join us each month in the mountains of North Georgia as the devoted and gifted Healers of Delphi channel the energies of Love, Light & Healing for your spiritual, mental, emotional and physical needs. Individual healing sessions are offered without charge on the first Saturday of each month (except January) starting at 12 noon. Everyone is welcome. Please wear white clothing. Call or email for more information.
